# WINDOW KITS

## STEEL FRAME WINDOW KIT

The **880 WK** steel frame window kits are made of 16 GA steel with studs welded to permit easy installation by piercing a cut out on the enclosure. The window is self-extinguishing polycarbonate, 1/8" or 1/4" thick.

All mounting hardware is supplied. Frames are finished with gray heat fused powder paint, electrostatically applied on a pre-treated base. Finish is ANSI/ASA 61 gray.

**CSA Certified / UL listed  
NEMA/EEMAC 4-12 / IP66**  
**Refer to p.734 to validate  
choice of substrate for the  
application**
