## LIQUID STORAGE TANKS

Norwesco is proud to be the world's largest manufacturer of molded poly tanks. For over 40 years, our customers have relied on Norwesco tanks for premium quality and reliability in performance.

Norwesco tanks are manufactured to strict quality guidelines to ensure years of high-performance use. Rugged, impact-resistant, one-piece seamless polyethylene construction make our tanks suitable for the storage and/or transport of most liquid chemicals. Norwesco tanks are manufactured using resins that meet FDA specifications to ensure safe storage of

potable water. Norwesco tanks will be delivered to you with a fitting installed when applicable, but may also be delivered without a fitting.

Our goal is to make it easy and pleasant to do business with Norwesco. We consider our relationship with our customers to be our most valuable asset.

## WARRANTY

---

Norwesco Canada Ltd. offers a 3 year warranty from date of manufacture on all premium weight tanks, water only tanks, and a 5 year warranty on all heavy weight tanks. Should a defect appear within the warranty period, Norwesco Canada Ltd. will supply a new, equivalent tank in replacement thereof. Norwesco Canada Ltd.'s liability is limited to the value of the tank itself and specifically excludes the cost of installation and/or removal or consequential damages. Please contact your chemical supplier or Norwesco Canada Ltd.'s Customer Service for chemical resistance information.

# VERTICAL STORAGE TANKS

Vertical storage tanks are most frequently used for bulk storage and static storage applications. Norwesco vertical tanks feature tie-down slots, built-in graduated gallon indicators, an offset fill-well and a self-vented, slosh-proof lid.

## HORIZONTAL LEG TANKS

With the broadest leg tank line available, Norwesco manufactures a size that will fit your needs. Used primarily for transport and nursing applications, Norwesco leg tanks feature molded-in legs that act as “baffles” to reduce sloshing.

PART NO.	IMPERIAL GALLONS	US GALLONS	DIAMETER	OVERALL HEIGHT	LENGTH	FILL OPENING	OUTLET/DRAIN SPECIFICATIONS

Optional Steel Bands available

## SPECIALTY WATER TRANSPORT TANKS

These tanks can be used for many applications. Used primarily for transport, they can also be used as stationary water storage tanks.

## ELLIPTICAL LEG TANKS

The elliptical tank style is designed to provide the greatest capacity with the lowest center of gravity, making it the best design available for transporting larger volumes. Norwesco elliptical tanks feature molded-in legs that act as “baffles” to reduce sloshing and provide increased stability during transport. Norwesco elliptical leg tanks require full length bottom support as well as support bands.

## FLAT BOTTOM TANKS

Flat Bottom Tanks are designed to be the most rugged and durable utility transport tanks on the market. Unlike other tanks, Flat Bottom Tanks provide all the strength you need for transporting liquids without the use of bands. Tanks should be mounted on flat surfaces with full length and width support.

## BLACK VERTICAL WATER TANKS

Our water tanks are manufactured using resins that meet FDA specifications to ensure safe storage of potable water. The black color limits light penetration, which reduces the growth of waterborne algae. These tanks are rated at 10 pounds per Imperial gallon, which means that they are for WATER STORAGE ONLY! They should not be used for chemicals, fertilizers or any other product.

PART NO.	IMPERIAL GALLONS	US GALLONS	DIAMETER	OVERALL HEIGHT	FILL OPENING	TOP FITTING	BOTTOM FITTING
44517	500	600	48"	84"	16"	1.5"	2"

## INDOOR FREESTANDING POTABLE WATER TANKS

These tanks have been specifically designed with residential and commercial applications in mind. The dimensions of the water tanks allow them to fit through a conventional doorway. The 230 and 350 come standard with a steel support frame. The design of the 330, 415 and 500 imperial gallon tanks allows them to be freestanding/self-supporting and eliminates the need for a steel support frame.

PART NO.	IMPERIAL GALLONS	US GALLONS	WIDTH	OVERALL HEIGHT	LENGTH	FILL OPENING	OUTLET/DRAIN SPECIFICATIONS
45408	83	100	18"	43"	36"	5"	1-1/4"
41205	115	138	24"	60"	24"	16"	-

44528	500	600	35"	83"	58"	16"	-

*Tank dimensions and capacities may vary slightly and are subject to change without notice.*

## PICKUP TRUCK TANKS

Designed to fit in the bed of full-size pickups as well as under a truck canopy, the 270 and 350 sizes have low profiles for better rear vision. They feature fill openings offset to the side of the tank for safety and easy access. A tough circular design adds strength. The 185 gallon tank fits both the “mini” pickups and full-sized models. Depending upon which way the tank is turned, the bottom width can be either 39” or 48”. Our pickup truck tanks feature built-in, graduated gallon indicators and slosh-proof lids.

PART NO.	IMPERIAL GALLONS	US GALLONS	TOP WIDTH OR DIAMETER	BOTTOM WIDTH OR DIAMETER	OVERALL HEIGHT	FILL OPENING	OUTLET/DRAIN SPECIFICATIONS

41227	350	420	65”	49”	39”	8”	2” w/ siphon

## FLAT BOTTOM UTILITY TANKS

The Flat Bottom Utility tanks are all purpose tanks used for a variety of applications. They are the perfect choice when looking for a tank to put in the bed of a pickup truck. They are often used in agricultural, industrial, manufacturing, auto detailing and liquid transportation industries for storage of water, wastewater, fertilizer and chemicals.

PART NO.	IMPERIAL GALLONS	US GALLONS	WIDTH	OVERALL HEIGHT	LENGTH	TOP FITTING	BOTTOM FITTING
45312	37	45	18”	19”	37.5”	5”	-

45315	90	110	35”	18”	48”	5”	-

*Tank dimensions and capacities may vary slightly and are subject to change without notice.*

# LOW PROFILE HOLDING TANKS

Low profile tanks are ideal for storage in areas where height is an important consideration. The low profiles are designed to fit under a cottage or cabin and the strong deep ribs create extra structural strength.

PART NO.	IMPERIAL GALLONS	US GALLONS	WIDTH	OVERALL HEIGHT	LENGTH	FILL OPENING	OUTLET/DRAIN SPECIFICATIONS
41188	160	192	46"	15"	80"	8"	-
