

The Symmons 10-Year Commercial Warranty

Durability for a Decade!

Why 10 Years? The answer is Symmons quality, reliability, and customer service.

Why 10 years? That's a great question! Our decision to increase our commercial warranty from five years to 10 years stems directly from our complete confidence in the quality of our shower valves, faucets, control valves, bath accessories, and other plumbing products.

Our products stand the test of time, and we know a thing or two about longevity—we've been manufacturing the highest-quality plumbing products for more than 85 years. If you have an issue, our industry-leading Customer Service team will be there to stand behind our products and make things right.

And because we're so confident in our iconic Temptrol® valves when used in commercial locations, the 10-year warranty immediately renews and resets when you replace the TA-10® spindle and TA-4 seat kit with genuine Symmons replacement parts.

**10 FULL YEARS
OF COVERAGE**

Doubling our commercial warranty speaks volumes about our confidence in our product quality and durability. Direct feedback from boots on the ground in the commercial plumbing field confirms that Symmons products stand the test of time.

If one of our products comes up short, we'll send you either a replacement part or a new product.

**BRING IT ON!
WE CAN TAKE IT**

We've built our products with durable, long-lasting semi-red brass, bronze, and stainless steel since 1939. Over the years, we've forged our ironclad reputation by standing behind everything we make.

Be sure to adhere to local, state, provincial, and national plumbing codes. Be safe. Know your limits.

**WE'LL BE THERE
WHEN YOU NEED US**

If you have an issue, our expert US-based Customer Service team will make it right. They have decades of experience with every scenario imaginable, and they'll get you up and running in no time.
