THE **Rubinet** FAUCET COMPANY

ASSEMBLY INSTRUCTION

2TRVW/2

WALL MOUNT TUB SPOUT

2TRVW

2TRV2

REMOVAL OF FAUCET:

Always turn the water supply off before removing the existing faucet or disassembling a valve. Open both faucet handles to relieve water pressure and to ensure that the water has been successfully turned off.

CARE OF FAUCET:

The use of warm water and a soft cloth is all that is required to clean Rubinet products. The patina of our living finishes (Oil Rubbed Bronze & Tuscan Brass) will change as a result of normal use. Applying Mineral Oil on occasion will create a softer look, subtle color changes and character.

1

* Cut the Copper Pipe 2" long from the finished wall and **MUST REMOVE ANY BURRS** before installing the Wall Spout.
