Flare Gauge

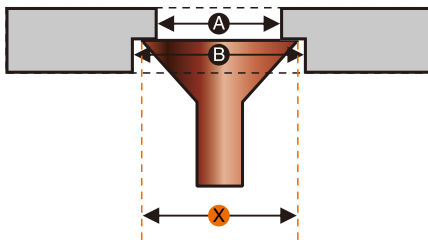

Front

Back

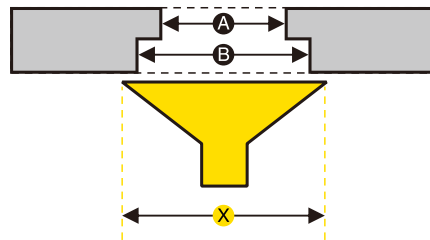

Ensuring Perfect Flares

Tube OD: 1/4", 5/16", 3/8", 1/2", 5/8", 3/4"

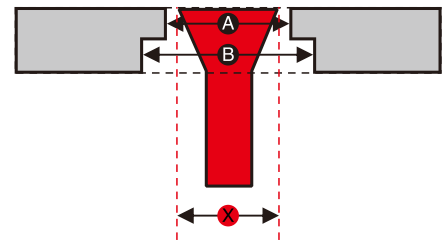

For Precise Measurement of Tube Flares

A good flare means $A < X < B$
X can go into B but can not go through A)

Over flare means $X > B$
(X can not go through B)

Under flare means $X < A$
(X can go through A)
