WHO ARE WE

Since 2008
The only project bringing together: PEOPLE, TECHNOLOGY
MEDITATION & MINDFULNESS for self-development and
world peace worldwide

Peace Revolution is an international project under the World Peace Initiative Foundation working for the culture of peace. Its slogan “Peace In, Peace Out” (PIPO) stands for each individual’s choice to be the change they wish to see in the world. We believe that world peace is achievable, and it starts with each individual working on developing their own inner peace. Hence, when we improve our own inner peace we are contributing to a more peaceful world.

WHAT DO WE DO

PI

[ Peace In ]

We work on empowering individuals through:

Self-development program
We offer a free online self-development program, that combines online guided meditations and mindful lifestyle reflections to support each participant in their own personal development. The aim is to teach the participants to develop their own skills and techniques so that they can cultivate inner peace.

Fellowships
International retreats held in Thailand and regional retreats are held in countries all across the world. The retreats are designed for active and committed participants who have a passion for self-development, meditation and are interested in becoming active agents of change within their communities.

PO

[ Peace Out ]

We have a network of international alumni who are actively involved in peace building through:

Online meditation
Internet-based meditation sessions are held all around the world, conducted by qualified trainers, where anyone is welcomed to join. It is a great opportunity to connect with like-minded individuals around the world and share a moment of peace.

Peace on demand activities
There are a series of international events (retreats, workshops, and meditation sessions) that are held in universities, schools, studios, companies and organisations in countries all across the world. These events are organised and hosted by local volunteers who are actively involved in the project. The events are conducted by qualified professional meditators which include teachings and meditation sessions.
