Engineering That Makes a Difference

Gannomat case clamps represent Austrian engineering excellence trusted by professionals worldwide. Their proprietary tolerance compensation systems, frequency-controlled motors, and robust construction deliver precision cabinet, furniture, and drawer assembly.

From custom shops to high-volume manufacturers, Gannomat provides reliable solutions built for real-world production demands. Simple operation, consistent results, lasting durability—that's the Gannomat advantage.

Concept 70 Easy

Features

- Adjustable working height for operator comfort and ergonomic efficiency
- Stepless adjustable pressing force
- Three pressing velocities (5/10/25 mm/sec)
- Easy to use 2 button operation for closing/opening
- Zero Setup time

Model	Working Height	Min. Dimensions	Max. Dimensions
Easy 170	67"	150x150x700	1300x1700x700
Easy 250	98-1/2"	150x150x700	1300x2500x700

Concept 70 ECO Plus

Features

- Three pressing velocities (5/10/25/50 mm/sec)
- Simple operation via 6 push buttons
- Separate potentiometers allows fine-tuning for optimal control
- Max pressure setting of 2,200 kg.
- Zero Setup time
- Workpiece recognition ensures both beams make contact at the right time preventing misalignment and keeping cabinets perfectly square.

Model	Working Height	Min. Dimensions	Max. Dimensions
70 ECO Plus	55"	150x150x700	2550x1400x700
