Where Caring, is our Calling

INTRODUCTION

Senior Citizen Nursing Centre is a registered organization that seeks to provide quality and dignified care for the aged in the Nairobi Metropolitan counties of Nairobi, Kiambu, Kajiado and Machakos in the Republic of Kenya.

The organization is a brainchild of two families who, after having witnessed first hand, the challenges of caring for their elderly parents resolved to establish a model home where the aged would access appropriate care befitting proud and worthy retired citizens whose families may not be able to afford the time, resources and healthcare needs for the elderly. The centre also serves as a halfway house for convalescing elderly patients.

OUR AIM

- To facilitate the highest possible quality of care for residents where residents feel valued, secure and happy
- Encourage our residents to retain their own independence
- To cater for the needs of our residents taking into account dignity, privacy and security
- Communicating with family and friends, in a common goal to achieve the highest quality of life for residents in our care homes.
- A friendly home providing high quality care for the aged
- A training centre for care givers
- Healthy and dignified elderly people accessing the best care allowing family to undertake critical livelihood roles.

Management

The home is run and managed by competent and professionals who are passionate about the plight and the welfare of the elderly.

The Founders who are also the board members have a lot of experience staying with the elderly people having themselves cared for the relatives and parents.

Our Services

The home provides the following:-

- Assisted living for the elderly
- Accommodation which includes provision of meals even to the clients who have special dietary requirements.
- Nursing care and home care support. The nursing care is made possible by our mutual partnership with the local hospitals.

Outreaches

We conduct outreaches which covers visiting the vulnerable elderly persons (VEP) where we provide them with food and clothing.

We also organize medical camps, legal clinics, workshops, seminars and other activities aimed at uplifting the socioeconomic and health status of the elderly community while at the same time we advocate for dignified and respectful lifestyle of the senior citizens.
