

# publishing • the job market • writing • teaching • mental health • work-life balance

18-20 November 2021

As young scholars we are confronted with many challenges: publishing, teaching, the job market, work-life balance and institutional barriers. Often we face these demands alone and without support. That's why we want to start sharing experiences, building resources and providing support to navigate these early career challenges within YSI.

**Young  
Scholars  
Initiative**

An initiative of the  
Institute for  
**New Economic Thinking**

## Early Career Days

Thursday, 18 November

**16:00 CET Meeting the Challenge of Creative Innovation in Economics**
