

Below is a reference copy of Zapier's previous Subprocessor list from September 16, 2024. Please note that this information is now outdated; it was replaced by Zapier's current Subprocessor list, which may be accessed at: <https://www.zapier.com/legal/subprocessors>

# Subprocessors

Zapier engages with third-party subprocessors and Zapier affiliates to help us provide services to our customers. These subprocessors store Customer Content (content you submit to your Zapier account) and assist Zapier with processing it (posted date: September 16, 2024):

[Prior version](#)

## Core Infrastructure Subprocessors

Name	Nature of Processing	Location
Amazon Web Services, Inc. (AWS)	Cloud service provider	USA
CloudAMQP	Processing event-based workflows used by Zapier services	USA
