

# PRODUCT PROFILE

## Zebra® Proportioning Pumps

### For Long Distance Mix Delivery

- Mixing hundreds of gallons per day?
- Is it a pain to switch from working mix to make-up?
- Tired of hauling coolant in buckets to your machine?
- If so, you are ready for a proportioning pump!
- Perfectly mixed fluid at EVERY use
- Delivers mix through hose or conduit right to your machine
- No need to verify concentration once initially determined
- Compact with few moving parts
- Can be permanently mounted to wall
- Maximum viscosity of 700 SUS
- 800' lateral max delivery
- 20' vertical max delivery
- Works for concentrates in pails, barrels, or totes (6' intake hose included)
- One year warranty

Prepump water filter for mixers/pumps (#MIXPPX75)

Water limiter (#MIXXWL.1)

Pressure regulating valve (#MIXXPRV.1)

### How It Works

Your concentrate is drawn in through the bottom port (A) and metered by the adjustable screw (B) for a constant amount of water being drawn in through the fitting (C) on the other side. The entire arm (D) moves back and forth so that your fluid is being injected into the water stream. The mixing occurs at the exit fitting (E), and proceeds to your tank. You can watch what is being drawn in the clear block, and you know the unit is working perfectly by seeing the draw arm moving.

Model	Part Number	GPM	Mix Range %	Mixing Ratios	
				Low	High
<b>Proportioner for Coolant</b>	MIXPP58	7	0.6-5.8	160:1	16:1
	MIXPP518	7	1.4-12.3	70:1	7:1
	MIXPP520	7	1.6-13.5	60:1	6:1
	MIXPP532	7	2.4-20.0	40:1	4:1
	MIXPP585	7	10.0-40.0	10:1	1.5:1
	MIXPP547	9.5	3.2-26.8	30:1	3:1
	MIXPP510-M	12	0.8-7.5	125:1	13:1
	MIXPP562-M	12	1.6-13.5	60:1	6:1
	MIXPP58.5-M	12	2.4-20.0	40:1	4:1
	MIXPP565-M	12	4.7-33.0	20:1	2:1
	MIXPP58-V	25	0.6-5.8	160:1	16:1
MIXPP520-V	25	1.6-13.5	60:1	6:1	
<b>Proportioner for Caustic Concentrates</b>	MIXPP585-W	7	10.0-40.0	10:1	2.5:1
	MIXPP565-M-W	12	3.0-30.0	1:33	3:3:1
	MIXPP520-V-W	25	3.2-26.8	1:31	1:3:7
<b>Accessories</b>	MIXPPX75	Prepump filter for proportioning pumps, 20µ			
	MIXXWL.1	Water Limiter, 15-150 adjustable PSI range			
	MIXXPRV.1	Backflow checkvalve			

For wall mount units, please add "(VM)" to the end of the part number.
