

# THE PRODUCTS YOU LOVE, IN A REVOLUTIONARY POWDER FORMULA!

## INTRODUCING **ULTRACELL®**, **ULTRAEDGE™**, AND **ULTRABURN™** POWDERS

### EXPERIENCE THE POWER OF POWDER:

**Bioavailability:** Full spectrum, endocannabinoid system-based support made water-soluble for enhanced absorption.\*

**Ease of use:** Simply add the powder to water and go!

### THE SCIENCE

The Endocannabinoid System, or ECS for short, is a complex network of

receptors that are found throughout your brain, body, and immune system. This system is believed to be responsible for balancing functions related to sleep, relaxation, and cognition. Your ECS is fueled by endocannabinoids, which are molecules produced by your body to interact with these receptors. When the production of endocannabinoids becomes slowed or imbalanced cannabinimimetics and phytocannabinoids, cannabinoids produced in the hemp plant, can supplement what the body may be lacking.

### THE BENEFITS OF ULTRACELL POWDER\*\*

UltraCell Powder contains full-spectrum hemp CBD extract that has been microencapsulated. The powdered UltraCell dissolves easily into water and

starts absorbing into your system quickly, for a fast onset of action.\*

### THE MIMETIX FORMULA — **ULTRABURN™ AND ULTRAEDGE™ POWDERS**

Typically, the conversation about the endocannabinoid system (ECS) revolves around phytocannabinoids alone. Mimetix™ takes ECS health to a whole new level. Mimetix™ are cannabinimimetics that have a similar pharmacological impact on the ECS as phytocannabinoids. When these compounds are combined in a full spectrum, water-soluble format, they can easily be added to your daily routine to support healthy weight management or healthy cognition and energy levels.
