### SUSTAINABLE INGREDIENTS

UltraSupport™ Collagen Complex uses vegetarian-friendly collagen extract from eggshell membrane, a natural source of collagen, elastin, and hyaluronic acid, which perform essential functions to keep skin hydrated and healthy.†

By using eggshells that are left over from other manufacturing processes and would otherwise end up in landfills, we are reducing our environmental impact while offering collagen in a vegetarian-friendly form!

### INNOVATIVE TECHNOLOGY FOR OPTIMAL RESULTS

Collagen Complex capsules are formulated for targeted delivery of our advanced ingredients using digestive-resistant capsules that protect the ingredients. This allows for the age-defying properties of Collagen Complex to be optimally utilized by our body.†
