iManage

### Business Objective

- ❖ Standardization of Source to Contract Process
- ❖ Ease of use within processes
- ❖ Compliance and Management
- ❖ Digitalization and Electronic approval of Green forms
- ❖ Tracking and Visibility of requests
- ❖ Automated Alerts and Reminders

### Business Challenges

- ❖ Request manager had the ability to change the form content after completing all the approvals which beats the purpose of approvals
- ❖ Custom fields in previous sourcing platform were not reportable and not usable in workflow
- ❖ Delegation of Authority Metrix in Workflow

### Zycus Solution:

Contract Management, Project Management, Supplier Management, eSourcing

### Why Zycus ?

- ❖ Standardized processes and templates
- ❖ Agile approach with end-to-end, transparent global process visibility
- ❖ Consolidated supplier management and data governance
- ❖ Responsive customer support to internal clients and commitment to deliver client's unique requirements

### Business Impact

- ❖ Increased compliance
- ❖ Standardised framework to analyze data
- ❖ Zycus classified data platform for easy reference
